Professional Summary

Motivated B.Tech Computer Science student and aspiring Software Engineer with hands-on experience in full-stack and frontend web development. Proficient in the MERN stack (MongoDB, Express.js, React.js, Node.js), HTML5, CSS3, JavaScript, and Java. Passionate about building scalable, user-friendly applications with clean code and modern best practices. Seeking an internship to contribute to real-world engineering projects while growing within a collaborative team.

Internship Experience

Web Development & Designing Intern | Oasis Infobyte – AICTE OIB-SIP Program

1 Month

Frontend Development Internship

- Designed and developed a fully responsive **Landing Page** using semantic HTML5 and CSS3, focusing on layout, accessibility, and cross-browser compatibility.
- Built a professional **Portfolio Website** with structured sections for Projects, Skills, and Certifications.
- Developed an interactive **Temperature Converter** using HTML, CSS, and JavaScript with real-time conversion logic between Celsius, Fahrenheit, and Kelvin.
- Strengthened core frontend skills including DOM manipulation, event handling, and JavaScript logic.

Projects

Teacher Management System

Live — [GitHub](#)

Tech: MongoDB, Express.js, React.js, Node.js, JWT, Bcrypt, Nodemailer

- Built a full-stack **MERN** application for managing teacher records with separate **Admin** and **Teacher** dashboards and role-based access control.
- Implemented **JWT Authentication** and **Bcrypt** password hashing; enforced route protection across all endpoints.
- Admin features: add, view, edit, delete teacher profiles. Teacher features: view personal info and schedule via secure dashboard.
- Integrated **Nodemailer** for email notifications; structured with MVC architecture separating React frontend, Node.js/Express API, and MongoDB models.

Personal Portfolio Website

Live — [GitHub](#)

Tech: HTML5, CSS3, JavaScript

- Fully responsive portfolio with **dark/light mode toggle**, smooth navigation, and sections for About, Skills, Projects, and Certifications. Deployed via GitHub Pages.

To-Do List App

Live — [GitHub](#)

Tech: HTML5, CSS3, JavaScript, localStorage

- Task management app with add, delete, and mark-complete functionality; **localStorage** used for data persistence across sessions.

Temperature Converter

Live — [GitHub](#)

Tech: HTML5, CSS3, JavaScript

- Interactive converter between **Celsius, Fahrenheit, and Kelvin** with real-time input validation and a clean UI.

Technical Skills

Frontend	HTML5, CSS3, JavaScript, React.js, React Router DOM, Responsive Design
Backend	Node.js, Express.js
Database	MongoDB
Programming	Java, DSA Fundamentals
Auth & Security	JWT Authentication, Bcrypt Password Hashing, Role-Based Access Control
Tools	Git, GitHub, VS Code, npm
Concepts	REST APIs, MVC Architecture, MERN Stack, localStorage

Education

Bachelor of Technology (B.Tech) – Computer Science & Engineering

Expected 2027

India

Certifications

- IBM** – Web Development / Technology Certification
- HP Forage** – Virtual Work Experience Program
- MathWorks** – MATLAB / Technical Computing Certification
- AICTE OIB-SIP** – Certified Web Development & Designing Intern, Oasis Infobyte
